New River Launches Two New ed2go Courses

New River Community and Technical College has a program that makes it easy to take high-quality, noncredit online courses. New River has partnered with ed2go to offer hundreds of online, instructor-facilitated courses and is pleased to announce the launch of "Photoshop Elements 7 for the Digital Photographer II" and "Spanish for the Classroom."

Photo Shop Elements 7 will teach those who already know the basics of Photoshop Elements how to do detailed photo editing, build collages, restore old photos and more. Through easy-to-understand lessons and hands-on exercises, participants will find it easy to take their photo-editing skills to the next level.

"Spanish for the Classroom" is a course for teachers. It covers the essential Spanish they need to know to communicate effectively with Spanish-speaking students and parents. Unlike the high school foreign language classes we all remember, this course does not include long vocabulary lists or complex grammar rules. Instead it uses games and stories to make learning easy, painless, and even fun!

These courses are part of New River's growing catalog of more than 300 instructor-facilitated online courses. Through well-crafted lessons, expert online instruction, and interaction with fellow students, participants gain valuable knowledge at their convenience. They have the flexibility to study at their own pace combined with enough structure and support to complete the course.

New sessions of each course run every month. They last six weeks, with two new lessons being released weekly (for a total of 12). The courses are entirely Web-based with comprehensive lessons, quizzes, and assignments. A dedicated professional instructor
facilitates every course; pacing learners, answering questions, giving feedback, and facilitating discussions.

To learn more, call New River Community and Technical College at (304) 872-4520 or visit them online at www.ed2go.com/nrctc.
