MINE FOREMAN CONTINUING EDUCATION CLASS TO BE HOSTED BY NEW RIVER CTC IN SUMMERSVILLE

[SUMMERSVILLE, WV] New River Community and Technical College will host a Mine Foreman Continuing Education Class presented by WVU Mining Extension Service on Saturday, May 16, from 8 a.m. until 4 p.m. The Extension Service has chosen Summersville as an ideal location to allow participation by many local mining companies from throughout the central region of the state.

The purpose of this Mine Foreman Continuing Education Class is to ensure those mine foremen are aware of new mine laws and regulations, duties of the mine foreman, types of accidents and accident prevention techniques, and review of fatal accidents.

As mine foremen-fire bosses are required to complete continuing education requirements within two years of their certification and every two years thereafter, this is an excellent opportunity for these individuals to receive their training close to home. This course will be presented by a board approved, qualified instructor. The fee for this program will be $50 per participant.

All mine foremen-fire bosses are encouraged to participate in this continuing education program. Due to limited class size, pre-registration is recommended. Contact Mary Igo or Beverly McCutcheon in the Center for Workforce and Business Development at 304-872-4520 to register.
