INFRARED TRAINING FOR WEATHERIZATION TO BE OFFERED BY NEW RIVER COMMUNITY AND TECHNICAL COLLEGE

[BECKLEY, WV] A two-day thermal imaging training course for energy auditors, weatherization professionals, insulation contractors and home inspectors will be offered on the Beckley Campus of New River Community and Technical College on Tuesday and Wednesday, March 23 and March 24.

This course is designed for both the new and experienced worker in the energy efficiency field. It will cover how to quickly locate insulation voids and air leakage pathways, how to insulate and air seal effectively, less invasive means for energy auditing, bidding and planning, reducing expensive call backs and better defining the thermal envelope. This cost-effective training course is 16 hours of classroom and field training. The cost is $500 per person. Class size is limited to 12.

This course is designed to meet proposed Building Performance Institute (BPI) and Residential Energy Services Network (RESNET) standards and recertification requirements for Home Energy Rating System (HERS).

For further information and to register for this class please contact Alyce Cooper at (304) 929-6735.
