Mental Illness Focus of Workshop at New River Community and Technical College

[Lewisburg, WV] Dr. Suzanne Williams will present a two-week workshop, “Mental Illnesses: All You Want to Know,” at New River Community and Technical Center Greenbrier Valley Campus Jefferson Office Park location in Lewisburg. The class will meet Oct. 19, 21, 26 and 28 from 9-11:15 a.m.

Williams is an osteopathic family physician with 11 years of experience. She will begin with myths and facts, then cover major depression, anxiety disorders, bipolar disorder and schizophrenia. She will also cover family dynamics.

Her experience as a speaker to community groups and as a co-teacher in the “Family to Family” course developed by the National Alliance on Mental Illness makes her an informed and refreshing speaker. The workshop format allows plenty of time for questions and answers.

Cost for this seminar is $75 per person. Space is limited, so please pre-register by Oct. 12 by calling New River’s Department of Workforce Education at 304.647.6570 or 304.793.6101.
