

8.1.6 Updates

Kronos will be upgraded to 8.1.6 over the weekend. This upgrade will eliminate the need for Flash. There are two design changes associated with this upgrade:

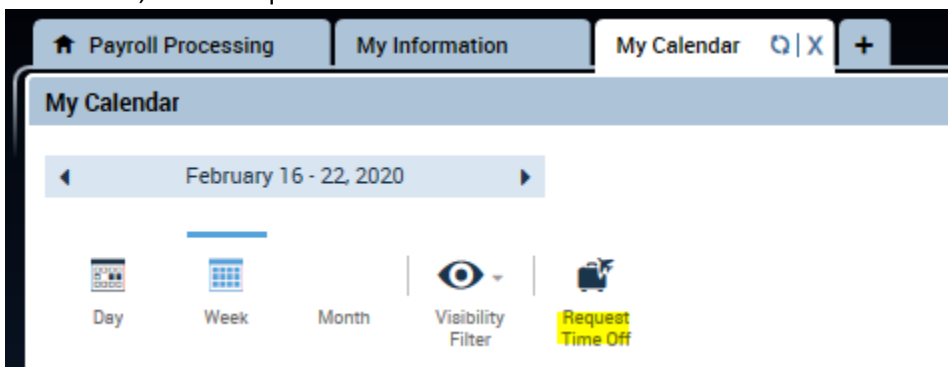

- 1) For managers who see employees other than themselves, there is a change in accessing your own timecard. On the left hand side, click the plus button as if you were adding a new tab. Then select My Information. This will open another tab with your timecard.

- 2) Time off Requests will change for all employees. To enter a request, navigate to your own timecard and then select My Calendar on the right hand side.

From there, select Request Time off on the left hand side.

The time off request box will open like normal.
