Catalog Year

This section only needs completed if a student is requesting a different catalog year than the current one.

The academic/catalog year determines graduation requirements as outlined in the College Catalog. When changing majors, students will be **automatically updated to the current academic year**, unless otherwise requested on this form. (Example: The student completes this form during a spring term but wants it processed for the upcoming fall term to be effective for the new academic year. Students may move forward but cannot go backward without approval from the Registrar.)

Students may also stay in their major but request the most recent Catalog Year for graduation requirements. Once a program/major or catalog year has been changed, students may not revert to an older version of the College Catalog. See the *Catalog Adherence Policy* in the College Catalog for more information.
